Datasheet for 110-4104 Mouse IgG F(ab')2 Antibody

Overview

Description:	Rabbit Anti-Mouse IgG F(ab')2 Antibody - 110-4104
Item No.:	110-4104
Size:	2 mL
Reactivity:	Mouse
Host Species:	Rabbit

Product Details

Background: Anti-Mouse IgG F(ab')2 Antibody generated in rabbit recognizes the dimeric Fab portion of the

mouse IgG molecule. Mouse IgG F(ab')2 is a proteolytic fragment of immunoglobulin G (IgG) obtained by limited digestion with the enzyme pepsin under controlled conditions of temperature, time and pH. F(ab')2 molecules lack the Fc portion of IgG and therefore receptors that bind mouse IgG F(c) will not bind mouse IgG F(ab')2 molecules. Secondary Antibodies are available in a variety of formats and conjugate types. When choosing a secondary antibody product, consideration must be given to species and immunoglobulin specificity, conjugate type, fragment and chain specificity, level of cross-reactivity, and host-species source and fragment

composition.

Polyclonal

Synonyms: rabbit anti-Mouse IgG F(ab')2 fragment antibody, rabbit anti-Mouse IgG Fab2 fragment

antibody, rabbit anti Mouse IgG Fab2

Host Species: Rabbit

Specificity: IgG F(ab')2

Format: Antiserum

Target Details

Clonality:

 Reactivity:
 Mouse

 Immunogen:
 Mouse IgG F(ab')2 fragment

Purity/Specificity: This product was prepared from monospecific antiserum by a delipidation and defibrination.

Assay by immunoelectrophoresis resulted in a single precipitin arc against anti-rabbit serum, Mouse IgG, Mouse IgG F(ab')2 and Mouse Serum. No reaction was observed against Mouse IgG

F(c).

Application Details

Application Note:	Secondary antibody reagents are ideal for ELISA, western blotting, Immunohistochemistry, Fluorescence Microscopy, Flow Cytometry as well as other antibody detection methods.
Assay Dilutions:	All assays should be optimized by the user. Recommended dilutions (if any) may be listed below.
ELISA:	1:20,000 - 1:100,000
IHC:	1:1,000 - 1:5,000
WB:	1:2,000 - 1:10,000

Formulation

Physical State:	Lyophilized
Concentration:	28.0 mg/mL by Refractometry
Buffer:	0.01 M Sodium Phosphate, 0.15 M Sodium Chloride, pH 7.2
Preservative:	None
Stabilizer:	None
Reconstitution Volume:	2.0 mL
Reconstitution Buffer:	Restore with deionized water (or equivalent)

Shipping & Handling

Shipping Condition:	Ambient
Storage Condition:	Store vial at 4° C prior to restoration. For extended storage aliquot contents and freeze at -20° C or below. Avoid cycles of freezing and thawing. Centrifuge product if not completely clear after standing at room temperature. This product is stable for several weeks at 4° C as an undiluted liquid. Dilute only prior to immediate use.
Expiration:	Expiration date is one (1) year from date of receipt.
