

Datasheet for 600-601-C98**Tyrosine Hydroxylase Antibody****Overview**

Description:	Anti-Tyrosine Hydroxylase (SHEEP) Antibody - 600-601-C98
Item No.:	600-601-C98
Size:	100 µL
Applications:	IHC, WB
Reactivity:	Mammalian
Host Species:	Sheep

Product Details

Background:	Tyrosine Hydroxylase Antibody detects Tyrosine Hydroxylase protein. Tyrosine hydroxylase (TH) is the rate-limiting enzyme in the synthesis of the catecholamines dopamine and norepinephrine. TH antibodies can therefore be used as markers for dopaminergic and noradrenergic neurons in a variety of applications including depression, schizophrenia, Parkinson's disease and drug abuse. TH antibodies can also be used to explore basic mechanisms of dopamine and norepinephrine signaling.
Synonyms:	Tyrosine 3-monooxygenase, Tyrosine 3-hydroxylase, TH
Host Species:	Sheep
Clonality:	Polyclonal
Format:	IgG

Target Details

Gene Name:	Th
Reactivity:	Mammalian
Immunogen Type:	Native Protein
Immunogen:	Anti-Tyrosine Hydroxylase Antibody was produced by repeated immunizations with SDS-denatured, native rat tyrosine hydroxylase purified from pheochromocytoma.

Purity/Specificity: Anti-Tyrosine Hydroxylase Antibody is directed against rat Tyrosine Hydroxylase protein. The antibody was affinity purified from monospecific antiserum by immunoaffinity purification. Expect reactivity from mammals. Cross reactivity with Tyrosine Hydroxylase from other species has not been determined.

Application Details

Tested Applications: IHC, WB

Application Note: Anti-Tyrosine Hydroxylase (Sheep) antibody is tested for use in Western Blotting, IHC and ICC. Specific conditions for reactivity should be optimized by the end user. Expect a band of approximately 60 kDa in size corresponding to tyrosine hydroxylase protein in the appropriate cell lysate or extract.

Assay Dilutions: All assays should be optimized by the user. Recommended dilutions (if any) may be listed below.

IF: 1:1000

IHC: 1:1000

WB: 1:1000

Formulation

Physical State: Liquid

Concentration: Titrated for 10 miniBlots

Buffer: 0.01 M HEPES, 0.15 M Sodium Chloride, pH 7.5

Stabilizer: 0.1 mg/ml Bovine Serum Albumin (BSA) - IgG and Protease free, 50% (v/v) Glycerol

Shipping & Handling

Shipping Condition: Dry Ice

Storage Condition: Store vial at -20° C prior to opening. This product is stable at 4° C as an undiluted liquid. For extended storage, aliquot contents and freeze at -20° C or below. Avoid cycles of freezing and thawing. Dilute only prior to immediate use.

Expiration: Expiration date is one (1) year from date of receipt.

Western Blot

Western Blot of Sheep anti-Tyrosine Hydroxylase antibody.
 Lane 1: rat caudate lysate. Lane 2: none. Load: 10 μ g per lane. Primary antibody: Tyrosine Hydroxylase antibody at 1:1,000 for overnight at 4°C. Secondary antibody: IRDye800™ sheep secondary antibody at 1:10,000 for 45 min at RT. Block: 5% BLOTTO overnight at 4°C.
 Predicted/Observed size: 60 kDa for Tyrosine Hydroxylase.
 Other band(s): none.
